THE DAILY NEWS.

Newport:

MONDAY, JANUARY 31, 1848.

BY O. F. JACKSON, 91-THAMES ST.

Advertisers will please bear in mind that the circulation of the DAILY NEWS is more than DOUBLE that of the Daily Herald, and greater than the combined circulation of the Daily and Weekly Herald. As one proof of this fact, the list of Letters remaining in the Post-Office is advertised in the NEWS, as BY LAW REQUIRED.

The wise Fathers of the country in Congress assembled, have now been deliberating upon nothing for the space of eight weeks, and the result of their labors is a few windy speeches, and the calling of the eyes and noses about one hundred times, each of which occupy more than an hour. And thus they will continue until the first of August, when they will commence work in earnest, and hurry through every important measure in about two weeks, leaving a vast amount of private business to slumber on the table until a more convenient season. We are decidedly of the opinion that if we could have a Quaker President and Cabinet, and a deaf and dumb Congress, for a few years, we should have all the business transacted in a reasonable time; all wars brought to a close, and the country placed upon a firm and honorable foundation. And all the plans that are now being proposed for the improvement of our national affairs, we suggest the above, and really think that it is worthy of serious consideration. As things now are, either party in power devote the whole four years of an administration, to pulling the wires and paving the way for a succession of the "powers that be;" and the members of Congress make long speeches to be printed and sent home to their constituents, for them to read with astonishment and honest pride, and glory over the mighty smartness of Squire so and so. There is not one speech in five hundred that is there made, that ever has the slightest influence on the minds of the members, particularly if of a political nature; for the party lines are strictly drawn, and scrupulously lived up to.—and all these speeches are made for effect among the people at large. They might, therefore, just as well be dispensed with, and the time devoted to business which demands action, and on account of which the country is suffering. The per diem pay of the members amounts to two thousand two hundred and eighty-eight dollars, and the other expenses of sailing the ship of State amounts to a vast sum. At a long session, the pay of the members, simply, is six hundred and twenty six thousand, nine hundred and twelve dollars; then to this is to be added the mileage, which is a very important item. Now some argue that the dignity of the nation must be sustained, and that Congress must not have but one session a day, as the Parliaments of Monarchical governments do not. For heaven's sake, are we to ape any of the aristocratic nations of the earth in their extravagant modes of administering the affairs of the people? We trust not. Our Congress ought to have two sessions each day, and work during the business hours of the day, and they would accomplish all they have to do, in three months, and the Treasury of the country would be relieved from a vast burden under which it now suffers, and the people at large would derive permanent benefits such as they have not experienced since the days of Washington, and the first Congress.

The suspension of payment by the firm of Andrew Robinson & Sons, extensive calico printers in Fall River, on Thursday last, created considerable excitement "on Exchange." It is said that the company has sufficient property to pay all demands against it, and hopes are entertained that it will be able to resume payment and go on with business.

By the stopping of this, concern some three or four hundred hands have been thrown out of employment, but every one was promptly paid off. They paid, for labor alone, \$150,000 a year.

P. S.—The Bellevue House, in this town, was put under attachment on Saturday evening, on account of this failure.

The liabilities of the concern are said to amount to about a million and a half of dollars.

The new ship Wm. Sprague, Capt. Chase, from Bristol for New Orleans, passed our harbor yesterday morning.

The great offers made by some publishers, put us in mind of an offer made a long time ago, of the whole world, by a distinguished personage, when the rascal did not own one foot of it.

The above attempt at wit appeared in the Herald of Saturday; but notwithstanding the writer of it aimed high, yet his arrows fell so far below the mark, that we will venture to say that not a half a dozen out of the one hundred and thirty readers, of that paper, could tell, for their lives, what he was shooting at.

We understand that it is intended as a half-off to our offer to give the publisher of the Herald \$100 if he will prove that the circulation of his paper is as large as that of the Daily News.—(his own assertion)—but such parlance never will satisfy the public,—they demand facts, and we will rest with "nothing shorter," so long as the Herald continues to assert that its circulation is as large as that of the Daily News.

Peace.—A letter received in New York on Saturday from a member of Congress, positively asserts that the Senate has a treaty of peace before them, and yet the Washington Union again denies that a treaty has been received by our government.

A Tampico paper mentions a rumor that advices had been received there from the city of Mexico, to the effect that peace would be concluded by April.

The Mexican paper, the Norte Americano, says that the hopeless state of Mexico, at present, has made it the necessity of the United States to annex her whole territory; and that European diplomats neither wish nor are able to prevent the spread of the Anglo Saxons, over this continent—the interests of the old world, with Mexico and the United States, being purely commercial; and to them it is rather beneficial, than otherwise, that the Northern race should continue to progress. A document in the Monitor says:

Cerro Gordo cost the nation 40 pieces of artillery; 1500 men killed, wounded and missing; 6000 muskets; the surrender at discretion of 5 Generals, with 3700 men who laid down their arms; the disgrace of 3000 cavalry, who fled with the second in command; the Maj. General, 15 Generals, 40 officers and 100 petty officers, who sought safety in the direction of Puebla; the fortress of Perote, which was abandoned to the enemy, with 40 other pieces of artillery, 4 mortars, and all the stores in the magazines, and a space of 52 leagues around that fortress.

Award in the case of the Louis Philippe.—We understand that the underwriters upon the Louis Philippe have now settled with all the claimants for services rendered on board of her, while in distress off this Island last month, either by the agent of the underwriters in New York, or by the agent of the Board of Underwriters in this town, Philip H. Folger, Esq. The crew who worked at the pumps, &c., until she arrived at Edgartown, eighteen in number, we believe, have received about \$2,100. Capt. D. G. Patterson, the pilot of the ship received \$650—five hundred of it being for services rendered in getting the ship into Edgartown. The whole amount received, including that paid the Steam-boat Company, is not far from \$31,100.—Nantucket Inquirer.

The great offers made by some publishers, put us in mind of an offer made a long time ago, of the whole world, by a distinguished personage, when the rascal did not own one foot of it.

The Magnetic Telegraph.—The total number of stations or offices on the telegraphic lines, now complete, amount already to 155, each office giving employment, on an average, to three persons, at salaries varying from \$20 to \$1200 per annum. The total number of miles of country traversed by the telegraphic wires, is about 6,850.—Of this extent, 3,250 miles are finished and in daily use, and the remainder is rapidly advancing to completion.

The lines already built are not sufficient for the transaction of the great press of business which seeks this channel of communication; and consequently some of the companies are already adding to their facilities for serving the public, by putting on a second wire.

The funeral of Capt. Benjamin Marshall will take place at 2 o'clock this afternoon, from his late residence in Pelham-st.

The barque Apollo, Capt. Chase, encountered a tremendous storm at sea on the 6th of December, two days after leaving the Roads for Palermo, and all perished with the vessel. She was owned in Warwick.

A Sabbath School has been established at San Francisco, Upper California.

The great offers made by some publishers, put us in mind of an offer made a long time ago, of the whole world, by a distinguished personage, when the rascal did not own one foot of it.

Thirtieth Congress—First Session.

SENATE.—Thursday.—Mr. Underwood presented a memorial from the Board of Managers of the Female Missionary Society, praying that lands west of the Rocky Mountains may be set apart for the Indians.

Mr. Bagby presented a resolution, to be added to those offered by him a few days ago, insisting that the people of the territories of the United States have a right to regulate the question of slavery in their respective territories.

Mr. Yulee, from the Naval Committee, reported a bill for the relief of the widows of the officers, seamen, and marines of the brig Somers.

Mr. Benton introduced a bill to amend the 65th and 51st rules of the articles of war, relative to the practice of courts martial and courts of enquiry in the army. It was read twice.

Mr. Benton presented a petition from Col. Fremont praying the Senate to appoint a committee to examine persons now in this city, as to liabilities incurred by him in California, for which he considers the government responsible.

The Ten Regiment bill was then taken up.

Mr. Phelps, having the floor, went into a calculation to show the effect of the war upon the financial and commercial affairs of the country. He estimated that up to the 1st July last, the Treasury had fallen in arrears from the commencement of the war \$98,000,000. At the close of the present year this arrearage would be increased to not less than \$50,000,000. He then examined the estimates of the Secretary of the Treasury for future revenues, all of which were too high. Having made deductions from each item in the Secretary's calculations, and having shown how the estimates of expenditure for the next two years may be expected to fall below the actual amounts reported, he concluded that the Secretary had overestimated the receipts for the next year about \$17,000,000 and underrated the expenditures \$22,000,000.

House.—The standing committees being called upon for reports, a number of private bills were reposed, read twice and referred.

Mr. Rockwell, from the Committee on Claims, reported with amendments, a resolution providing for the preparation and publication, alphabetically, of all private claims, from the commencement of the fourteenth to the close of the twenty ninth Congress, with the action of the House and Senate on each particular case.

More years and days were called several times on various motions and amendments, and finally the report was agreed to, and the resolution adopted, yeas 92, nays 89.

The House went into Committee of the Whole, Mr. J. R. Ingersoll in the chair, on the President's message.

After a long debate the House adjourned.

A Democratic State Convention is to be held in the State House in Providence on Tuesday, the 22d of February, at 2 o'clock, P. M. to nominate a ticket for State officer the ensuing year, to elect delegates to attend the National Convention, and for the transaction of such other business as the Convention may deem proper.

Religious Persecution.—John Simmonds, a poor, honest and industrious man, with a wife and family, has been committed to Aylesbury jail to take his trial at the quarter sessions for refusing to pay fire peace towards the cost of the bread and wine, the cushions, and the cassock of a parish church.—Foreign paper.

Whaling in Long Island Sound.—Several whales were seen off Long Island last week, one was killed near Southampton on Thursday, but his captors were obliged to cut him, night coming on.

A Large Hog.—A hog was recently slaughtered in Cincinnati, which weighed 975 lbs. gross. Before driving, it weighed about 1100.

The Rothschilds are about to establish in New York a house bearing their own name.

A Stroke.—The journeymen house carpenters of New York city, held a public meeting on Tuesday evening, and adopted resolutions, one of which is as follows:

Resolved, That we, the journeymen house carpenters of the city of New York, with ask and demand, on and after the 10th March, 1848, the sum of \$1 75 per day for our labor."

The great offers made by some publishers, put us in mind of an offer made a long time ago, of the whole world, by a distinguished personage, when the rascal did not own one foot of it.

The above attempt at wit appeared in the Herald of Saturday; but notwithstanding the writer of it aimed high, yet his arrows fell so far below the mark, that we will venture to say that not a half a dozen out of the one hundred and thirty readers, of that paper, could tell, for their lives, what he was shooting at.

We understand that it is intended as a half-off to our offer to give the publisher of the Herald \$100 if he will prove that the circulation of his paper is as large as that of the Daily News.—(his own assertion)—but such parlance never will satisfy the public,—they demand facts, and we will rest with "nothing shorter," so long as the Herald continues to assert that its circulation is as large as that of the Daily News.

Peace.—A letter received in New York on Saturday from a member of Congress, positively asserts that the Senate has a treaty of peace before them, and yet the Washington Union again denies that a treaty has been received by our government.

General Assembly—Fourth Session.

SENATE.—Friday.—Resolution relative to the removal of an insane person in Newport jail to Butler Hospital. Read and passed.

Adjourned to Monday afternoon next.

HOUSE.—Mr. Cranston and Mr. Robbins each introduced resolutions relative to the Mexican war. Read and laid upon the table.

An act to adjourn the February term of the Supreme Court, Washington County.—Read first and second time and passed.

An act further to protect personal liberty was called up, and a long debate ensued, in which Messrs. Whipple, Ames, Barber, Hadden, Shearman, Cranston and Manchester participated, until the House adjourned.

Afternoon.

The Senate was not in session.

HOUSE.—Resolution authorizing the removal of an insane person in Newport Jail to the Butler Hospital, passed.

An act further to protect personal liberty. Postponed to Tuesday morning next.

The committee to whom was referred the subject of the taxation, reported an act for taking an estimate of all rateable property in this State, and certain resolutions.—Read and ordered to be printed, and to be made the order of the day on Tuesday next.

An act in relation to Cashiers of Banks and Secretaries of Insurance Companies.—To be taken up on Tuesday.

Resolutions relating to the Mexican war. Referred to a special committee, consisting of Messrs. Cranston, Robbins, Ames, Ballou and Jencks.

Petition of Ezekiel Fowler et al, for act of incorporation as the Woonsocket Union Railroad Company. Referred to Committee on Corporations.

House adjourned till Monday afternoon, at three o'clock.

Auburn, N. Y. is about to follow the example of Syracuse, and become a city.

It is not often that we find amongst the Medical Faculty sufficient candor to accord any merit whatever to "Patent Medicines" as it conflicts with their interest so to do; but below we give an exception.

Opinion of a Regular Physician.

This certifies that I have recommended the use of Wistar's Balsam of Wild Cherry for diseases of the Lungs, for two years past and many bottles, to my knowledge have been used by my patients, all with beneficial results. In two cases where it was thought confirmed consumption had taken place, the Wild Cherry effected a cure.

E. Boyden, Physician at Exeter Corner.

None genuine, unless signed I. BUTTS on the wrapper.

Caution.—The public are particularly cautioned against being imposed upon by persons that are selling preparations of Sarsaparilla which they pretend have the same qualities as Brown's Sarsaparilla and Tomato Bitters. Since these Bitters have been offered to the public, there have been no less than four different imitations got up by as many different individuals, and sold for the genuine. The good qualities of Brown's Extract of Sarsaparilla and Tomatoes, or Sarsaparilla and Tomato Bitters, is already known and appreciated by physicians and the public—particularly by those who have used them for impurities of the blood, bad humors, Scrofulous diseases, Bilious affections, Costiveness, loss of appetite, &c. There has been no medicine sold that has given such general satisfaction. There cannot be the least doubt but this compound is the best alternative now in use. We have abundance of proof of that fact. There have been thousands of cases of impurities of the blood cured by this medicine. Some of them have been truly wonderful, where the patients have been given over as incurable. The above compound is not merely a common extract of Sarsaparilla, but a very strong extract of the best Spanish Sarsaparilla, extracted by an entirely new apparatus, made expressly for the proprietor, and used by no other person in this country. This apparatus ensures the whole medical qualities of this most valuable root.

The Lady's Faith in Radway's Soap. I knew my face was Tanned and Freckled, with Pimples, and with Blotches speckled Sunburn and other annoying Spots, With Scoury, Morpew and Salt Rheum, Upon my cuticle assumes To reign with full authority.— But, ah! my friends, I'll cure them soon, With a soap of a superior quality. Radway's Chinese Medicines— Is the name of this precious Soap: It really cures all heretofore stated— Either Pimples, Blotches, Tan or Spots. The lady said she spoke the truth, She found the Soap the friend of youth, And beauty now assumes its place, Upon the clear, transparent face, All ye who have upon your skin, Pimples or Blotches, Pusules or Tan, Or the neck, the nose, the face or hands, Or if perchance upon your arms— And would possess angelic charms, Fear not to rest your faith and hope In Radway's Medicated Soap.

A secret which baffles the ingenuity of all who have attempted to analyze its properties. The extraordinary effects of this delicious emollient is truly astonishing, for no sooner is Radway's Soap applied to the surface, than tan, sunburn, pimples, blotches, tetter and other excrescences speedily disappear. It softens, soothes, heals and sweetens the skin, and imparts beauty to the complexion of all who use it. Sold for 2s. for large, and 1s. for small, at 2 Courtland st. N. Y. R. J. TAYLOR, Agent.

Cold Feet are an evidence that the blood is impurified with morbid humors, which not only render the circulation sluggish and unequal, but prevent a proper supply of the vital fluid to the extremities. Hence coldness of the hands and feet, accompanied with headache, giddiness, and many other unpleasant complaints.

Wright's Indian Vegetable Pills are one of the best preventives in the world against Cold Feet, because they not only cleanse the blood from those impurities which are the cause, but they impart an energy to the circulation which carries it with vigor to every part of the system.

Beware of Sugar Coated Counterfeits.—Remember that the original and only genuine Indian Vegetable Pills have the written signature of William Wright on the top label of each box.

The genuine are for sale by G. C. G. HAZARD, No. 59 Thames-st., Sole Agent for Newport; and by Nathan Dennis, Portsmouth; Seabury & Almy, Tiverton Bridge; Arnold Smith, Tiverton Four Corners; H. E. Brown, Little Compton; W. A. Brown, Adamsville. Wholesale at the New England Office, 195, Tremont-st., Boston.

To enable Mankind to Die of Old Age without Disease.—The public may not be aware that the Rev. B. Hibbard's Vegetable Pills are the very best Family Medicine extant; perfectly reliable in every emergency. No one can foresee the moment when they or their children may be attacked. Disease comes like a thief in the night, and in times of peril, anxiety and danger, it is a relief to the mind to have at hand a remedy so certain, prompt, and efficient in warding off as well as curing disease. Ship Fever, Typhus Fever, Congestive and Bilious Diseases are rife throughout the land. To travellers, emigrants, soldiers, and families, we say neglect not to provide yourself with so potent a possessor of the blood; so safe, mild, and universal a remedy as these sovereign Vegetable Pills. Remember the name of Rev. B. Hibbard is on the label of each box. All others are spurious. T. R. Hibbard, M. D., 96 John-st., New York, proprietor. See advertisement in another column.

One of the most important effects of the recent progress of Science is the alliance of Chemistry with Physiology. By which a new and unexpected light has been thrown upon the vital processes of animals. For this we are indebted chiefly to the German and French chemists.—We have now a clear understanding of the different action of aliments, poisons, and remedial agents, and the long derided theory of the blood being the portion of the system upon which the latter should act, is now a demonstrated truth.

The great object, therefore, is to ascertain what remedy will act most directly upon the constituents of the blood when in the act of combination. Experience, observation, and a cloud of witnesses, establish the fact that SAND'S SARSAPARILLA is at the very head of this class. Cancer, scrofula, morbum, erysipelas, leprosy, ringworm, mercurial diseases, suppuration of the glands, swellings of the joints, and all the diseases of the muscles and tissues, together with general debility of the system, yield to this unflinching purifier of the blood—for the blood is the channel through which disease finds its way to the various organs of the body.

Prepared and sold by A. B. & D. SANDS, Druggists, 100 Fulton st. N. Y.

Sold also by Dr. R. R. Hazard and R. J. Taylor, Newport, by J. Russell, Fall River, by C. Dyer, for sale by R. J. TAYLOR.

Arrival of Madame C. Amy, the Phrenetic Phenologist and Clairvoyant.

THIS celebrated and wonderful gifted Philosopher, has arrived in this town, and announces to the ladies and gentlemen of Newport, and vicinity, that she will make a short stay at the United States Hotel, where she has taken apartments for the accommodation of her visitors, who will be politely received and conducted to Madame Amy's parlour.

As an Independent Clairvoyant! she will by her universally acknowledged skill in Physiology, Phrenology, and Phenology, inform those who will investigate her talents of their leading transactions of the

Present and Future Events.

Ladies in delicate health, may be assured that Madame Amy is able to give them information which will be invaluable, and to any who desire it, will

The Teas mentioned in the above catalogue are put up in Quarter, Half and Pound Packages, made perfectly air tight, and warranted to be well worth the price marked on the label; if they are not found to be so, they can be returned at any time and the money will be refunded.

The Canton and Pekin Tea Company, although not the "exclusive vendors" of the justly celebrated "Howqua Mixture," can still accommodate their customers with it, at a price and of a quality which will bear comparison with any other.

The citizens of Newport and vicinity are respectfully invited to call at the above store, 150 Thames-st., and test the qualities of these Teas, as the company are confident, after purchasers make one trial, that an extensive custom will be secured.

PHALON'S CHEMICAL HAIR INVIGORATOR.

A REMEDY for all diseases of the Hair, and is restorative in all cases where baldness is not beyond the reach of art.

Naught with beauty can compare,
With soft, glossy locks of hair;
It not endowed with such by nature,
Use Phalon's Hair Invigorator.

The subscriber having devoted a considerable portion of his time or twenty years to the study of the skin and the human hair, also the best means of treating and curing the same, and having, in the course of his experiments made various changes and improvements in the different articles approved as the best for such purposes, has at length, after laborious research and deep investigation, succeeded in bringing to perfection a composition, the virtues of which he challenges the world to exceed.

The Chemical Hair Invigorator is composed of a number of vegetable ingredients of equal quantities, and approved by the highest medical standard, the secret of blending and combining, which is known only to the subscriber, who has spared neither pains nor expense in bringing it before the public.

The Invigorator is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture of the hair never before attained, yet free from animal grease or essential oils. It cleanses the pores of the skin, causes a healthy action of the blood vessels, to revive, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff and other cutaneous diseases, disposes the hair to curl, and keeps it so—will positively change the hardest hair into the most soft and healthy and glossy state, also imparts to it a darker color, and a free use of it will keep both the skin and hair in a healthy and luxuriant state until the last period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which when moistened with the Invigorator can be dressed in any required form, so as to preserve its place whether plain or in curls. When used on children's heads it lays the foundation of a good head of hair.

Invented and prepared by EDWARD PHALON, professor of Wig Making and Hair Cutting, 61 Broadway, New York.

A treatment on the Anatomy and Physiology of the Hair, with directions for preventing baldness, removing dandruff and preserving the natural beauty and softness of the hair.

The great and only Successful Remedy for the cure of Consumption, Cough, and Lung Disease.

Dr. E. W. Vandersmith's INDIAN COUGH BALM and LUNG BALM.
READ.
Disease of the Lungs and Throat cured.
White Plains, April 20, 1847.
This is to certify that I have been afflicted for five years with a cough, pain in the chest, night sweats, difficulty in breathing, &c., and I also expectorated a large quantity of frothy matter and blood, from which I was reduced to a perfect skeleton, my throat was very much ulcerated. I had leeches applied to my throat twice a week, but received no benefit; I have used one hundred different kinds of Patent Medicines, recommended by my friends, but all to no purpose. A friend of mine, Mr. Willett, whose lungs had been affected for two years past, was cured by Dr. Vandersmith's Medicine. He insisted upon my trying Dr. V., and I did so. After I had used his medicine 15 days, I expectorated large quantities of yellow frothy matter, my chest expanded, and my difficulty in breathing subsided. I persevered with his medicine, and the result has been, I am perfectly cured of all my sickness. I recommend every consumptive to try Dr. V.'s medicine, I am confident it will cure you. Your sincere friend,
EDWARD C. THOMPSON.
Sworn before me this 21st day of April, 1847.

Information of the Lungs.
New York, June 10, 1847.

Dr. Vandersmith—I have been subject to a cough, pain in the chest, difficulty of breathing, &c., for many years past. About four months ago I took a severe cold, which settled on my lungs. I was unable to attend to my business during the day. I would have dreadful coughing spells, that I thought it was impossible for me to survive unless I could get relief. The excessive night sweats, had reduced my whole body to a skeleton. I expectorated white frothy mucus, in fact, should I give the full particulars of my case, it would be almost incredible. I was recommended to try Dr. Vandersmith's Indian Cough Balm and Lung Balm. I consented; when I used it about one week, my cough decreased considerably, which gave me great hopes. I continued with the medicine according to directions, and the result has been that I am restored to health, a blessing that I have not enjoyed for years, until the present. I sincerely believe had I not made use of Dr. Vandersmith's invaluable medicine, that I would be monitoring in the silent grave.—Therefore I believe that I am doing nothing but what is justice, in stating the above facts, so that you may show it to all the afflicted who may call upon you to administer to them. I shall be pleased at any time to converse with the afflicted who call upon me. Your grateful patient and friend,
JAMES B. HENDERSON,

Consumption.
Staten Island, June 10, 1847.

Dear Sir—I take great pleasure in giving you my certificate, but December 1 was attacked with a severe cough, pain in my left side, loss of appetite, and continued raising of white and yellow mucus. Some days I raised a half-pint of mucus, streaked with blood. I have been under the treatment of a dozen physicians, I was recommended by Dr. Mitchell of Philadelphia to use a Breathing tube, I purchased one, I only made use of it one week, it was the cause of bringing on a hemorrhage of the lungs, which reduced me so much that I was unable to sit up, my voice was entirely destroyed, it was difficult for persons to understand me. I saw Dr. Vandersmith's Medicine recommended very strongly by a patient whom I had cured. I sent for half a dozen bottles, I received great benefit from that, which induced me to purchase a dozen bottles, I took according to the directions and it cured me perfectly sound.
Yours, &c.
ROBERT WILLSEY.

Look at This.
Dr. E. W. Vandersmith's Vegetable and Anti-Rheumatic FAMILY PILLS are not found to be the most convenient, the best physic ever tried, and fully equal to any recommendation of them.—You do not find that one of these pills does more good than four to six of any other kind, every agent stands ready to receive the empty boxes and return the money.

These Pills are recommended as being without an equal in all Bilius attacks, affections of the Liver, the Lungs, Stomach, or Bowels, caused by taking cold, or obstructed perspiration. They carry off the bile, cleanse the stomach and bowels, and reopen the closed pores of the body, thereby letting out the insensible perspiration through its secret channels, and relieving at once the internal organs. Also in all chronic affections, as Dyspepsia, Sick Headache, Rheumatism, &c.—Mind the Directions, which go with each box.
Every agent has directions of these Pills to give away.
Half a Pill is the usual dose, though some require One Pill, or even more. Children of one year and over, one quarter of a pill, of 7 years and over, half a pill. These Pills are purely VEGETABLE, and may be taken under all circumstances, without regard to drink or diet.

Hyer's Pills.
The American Improved Hygienic Vegetable Medicine.
SAFE, CHEAP AND EFFECTIVE.
This medicine makes no pretensions to miraculous powers, the raising of the dead, or to immense and astounding sales daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple aid to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties.—During the last twenty years it has worked its way into extensive use, *exactly upon its own merits*, by recommendation from individual to individual, not having been advertised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has measurably compelled greater attention to its business, and agencies are now being established throughout the country.
A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years), as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand were assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must be in the use of it. Try it, then. Read, try, and then judge.

Bogle's Hyperion Fluid; Or Vegetable Hair Composition.
THE subscriber has been induced to bring this article before the public, at the request of his numerous customers, among whom are physicians and citizens of the first respectability, who have adopted its use in their families, and wish others to participate in its advantages.
The Hyperion is composed of vegetable ingredients, the secret of compounding and blending which is known only to the subscriber. It is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture never before attained, yet free of animal grease or essential oils. It clears the pores of the skin, causes a healthy action in the blood vessels, nerves, &c., which feed the hair, thereby preventing BALDNESS AND GREY HAIR.
It entirely frees the skin from Scurf, Dandruff, and other cutaneous diseases, dispenses the hair to curl, and changes the harshest hair into the most soft, glossy, and healthy state, also imparts to it a darker color, and the free use of it, both on the skin and hair, in a most healthy and luxurious state until the latest period of life.
Ladies will find the Hyperion a gr. at addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the fluid, can be dressed in any required form, so as to preserve its place, whether plain or in curls.—When used on children's heads, it lays the foundation of a good head of hair.

JOHN T. STANHOPE.

Coggeshall & Bliss' Patent Cooking Range.
THE subscriber has just taken out letters patent for a new and beautiful cooking Range, to which they invite the attention of the public.
This Range may be set in the ordinary fire place, and by a simple, though effectual apparatus, the throat of the chimney may in an instant of time, be opened or closed, so that the heat in summer and the fumes from cooking at all times may escape through the chimney.
Wood or coal may be used, and the evil of smoking chimneys is completely remedied by its introduction.
This Range is so constructed that it takes up but a small space, and yet it contains all the qualities of those which take up double the amount; and it being constructed as it is, the boilers are brought in close proximity with the fire, and it consequently boils much sooner, and with a smaller amount of fuel, than the old fashioned Ranges, or cook stoves. It contains five boilers, four of which may be converted into two, by taking out a cross piece, and thus will admit of two large boilers at the same time. It also contains an Oven 12 inches wide by 21 deep, which cannot be surpassed for baking.
The subscriber has one of these Ranges in operation at his store, where the public are invited to call and examine it, and if they will, they must once discover its utility. He also keeps constantly on hand all kinds of Parlor, Office, and Cook Stoves, Tin Ware, &c., &c.
WM. H. BLISS. Feb 9-4f

READER! READER!
If you are afflicted with Bronchitis, Asthma, Obstruction of common Coughs and Colds, Spitting of Blood, Bleeding of the Lungs, Whooping cough, croup, difficulty of breathing, sore throat, hoarseness, first stages of consumption, and all other Pulmonary or Lung Complaints, try
DOCT. EMANUEL'S BALSAMIC LUNG AND COUGH JELLY.

THE materials of this Jelly are purely vegetable and balsamic, and are the invention of an eminent physician, from whom the proprietor has purchased the recipe. It is certainly worth its weight in gold, but is put at a price to be within the reach of rich and poor.
Names and residences of persons residing in the city of New York, who have been cured or benefited by Dr. Emanuel's Balsamic Cough and Lung Jelly, when it was prepared in another form:
Mr. Hiram Annetts, 113 William-st., N. Y., had for some time, a dreadful pain in his side and chest, with a hacking cough, and shortness or difficulty of breath. He used part of a bottle of Dr. Emanuel's Balsamic Lung and Cough Jelly, which perfectly cured him.
Mrs. Morgan, Front-st., Brooklyn, had a very obstinate cough and cold. She tried every other remedy in vain, and Dr. Emanuel's Balsamic Lung and Cough Jelly entirely cured her.
Reader, reader, let the glad voices and grateful hearts of these respectable citizens of New York, appeal to your hearts and understandings, if you are afflicted with any pulmonary complaint, cough, cold, &c.

Mr. T. W. Conklin, 102 Eldridge-st.
Mr. Alonzo Brown, 73 Reade-st.
Mrs. Morgan, 162 Front-st., Brooklyn.
Orange County, April 19th, 1846,
DR. EMANUEL.
Dear Sir:—You may perhaps think my statement almost incredible. My reason for fearing so is the fact of your never recommending your Jelly for the cure of confirmed consumption, but only in its primary or first stages. I have every reason to believe that I was in its last stage; my physician told me so; my friends told me so; as well did my symptoms, for they were truly alarming; and I felt fully convinced, that unless relief was obtained, I must soon be consigned to the narrow confines of the silent grave. But by the timely use of your remedy, I still live, and again enjoy my former good health. I had, indeed, dear Sir, all the alarming symptoms you speak of as forming consumption in its worst stage; but by the use of your Jelly, I again say, I am cured.
Yours, dear Sir, with great sincerity,
ISAAC J. BEED.

And now, reader, having given you a plain statement, let me conjure you to pause, ere it is too late; try this Balsamic Lung Jelly—try it. I have put its price to you as low as I can afford; if you use it, and succeed in curing yourself, I shall have the gratification of having rescued another from consumption; and I hope, in return, that you will not withhold from me your name, and a statement of your cure.

MOTHER'S RELIEF.
IT is now about ten years since this medicine has been introduced to the public, and it stands unrivaled in its effects, bearing the test of the severe scrutiny of all classes, both friendly and unfriendly. It is but for one purpose;—for the use of Mothers who have to pass through a sea of affliction in giving birth to mankind, not to be described. It is to you we make an appeal. It is for your especial and general good that you should make use of one bottle of the **MOTHER'S RELIEF** before confinement. Then you can approach the parturient chamber without feeling as if you were going to the chamber of death. You may rest assured it will still all-terrible and nervous affection. Hemorrhages and shudders from irritation and by its peculiar properties it destroys the cause of hemorrhage or inflammation that so often attend and follow the hour of parturition. It causes sweet and natural rest, and at last facilitates the birth, so that Mothers have not to pass through such excruciating pain and distress. The Mother's Relief may be depended upon in all cases of threatening abortion where it is possible to be prevented in cases of Spasms, &c. causing frequent alarm, from two to three doses will give immediate relief.
As the subject is one that cannot with propriety be fully discussed in this public manner, we invite all who feel interested to call on our agents (most of the respectable Druggists in the United States,) or on the manufacturer, and they will be furnished with a pamphlet in which they will find all the facts to form a correct opinion of its merits, and also the opinions of many physicians of eminence, and of persons who have become acquainted with its beneficial effects.
CAUTION TO PURCHASERS.—Ask for Bartine's Mother's Relief. None is genuine unless our signatures are found within the wreath of the direction that is pasted on the bottle, signed with our own hand, and over the neck of the bottle is a facsimile of our own hand writing also. By attending to the above directions, no one need be imposed upon. All orders will be promptly attended to.
